Profile

I am a Web Developer and UI Designer passionate about technology and design, user interfaces and experiences. I have more then 15 years of experience under my belt, creating all sorts of projects from from simple personal sites and blogs to PWAs, e-commerce, financial and educational platforms.

Skills

Web Application Development. Responsive Web Design. User Interface Design. Front-end Coding. Ever-green web stack - HTML5, CSS3, JavaScript. Languages and libraries - TypeScript and React, Node and Express. Tooling and automation. Structural thinking and holistic approach.

Experience

Senior Frontend Developer

Gurukami · Full-time
March 2021 - June 2023 · 2 years 4 months

Gurukami is a an educational online platform that brings together content creators, like teachers, couches and mentors, and audience, people willing gain new useful knowledge.

In Gurukami I was a bit more like a Front-end TeamLead doing all sorts of stuff, including close collaboration with Design Team and training junior colleagues

- Product features design and front-end UI implementation in close collaboration with Design Team
- Creating and maintaining Design System for the whole platform in close collaboration with Design Team
- Creating and maintaining component library with Storybook
- API design in close collaboration with Backend Team
- Documenting client/server interaction processes with Mermaid Diagramming toolkit using docsify with later migration to Docusaurus
- End-to-end testing of customer journey scenarios with Playwright
- Providing help and training for junior colleagues

Senior Frontend Developer

MTS Group · Full-time
November 2019 - March 2021 · 1 year 5 months

The project is an entry level easy-to-use financial app for investment, designed for people without financial education or experience.

Main goal is to create user friendly UI with maximum clarity and feedback to reinforce users sense of welcoming and safety.

- Product features design and front-end UI implementation
- Creating and maintaining Design System in close collaboration with Design Team
- Creating and maintaining component library with Storybook
- End-to-end testing of customer journey scenarios with Cypress
- Migration of companion legacy Next project to SPA
- Managing outsourced front-end team
